Professional Summary

AI Engineer and MS Data Science candidate with 5+ years of technical experience, specializing in **Generative AI, Large Language Models (LLMs), and MLOps**. Proven track record in architecting **Retrieval-Augmented Generation (RAG)** systems, **autonomous agentic workflows**, and production-grade data pipelines. Expert in bridging the gap between complex AI architectures and business value, demonstrated by leading high-impact technical workshops for enterprise clients (Globe Telecom, NVIDIA, DOST).

Work Experience

Supervise, Inc.

Pasay City, Philippines

Artificial Intelligence Engineer

Jan 2025 – Present

- **MLOps Automation:** Engineered a production pipeline using **Python** that eliminated **90% of manual training workflows**, enabling reliable model deployment in a 24/7 operations environment.
- **Pipeline Optimization:** Re-architected a critical data processing system, reducing runtime from **108.6s to 11.2s (90% improvement)** via multi-threaded architecture, significantly accelerating data availability.
- **Production Deployment:** Deployed a **License Plate Recognition (LPR)** system achieving **98% data accuracy** with robust **AWS (S3, DynamoDB)** integration; success led to a 5-branch nationwide expansion.
- **QA Tool Engineering:** Delivered Version 2.0 of a QA tool, implementing intelligent data parsing that eliminated **88% of false record inflation**, ensuring absolute data integrity for audit workflows.
- **Technologies:** Python, AWS (Lambda, S3, DynamoDB), SQL, OpenCV, Git, MLOps Pipelines

De La Salle University, Intelligent Systems Laboratory

Manila City, Philippines

Multiple Roles

Jul 2020 – Present

- **Project Technical Associate II (Jan 2025 - Present):** Co-supervise a team of 8 (undergrads, interns, senior professional) in developing an AI Vehicle Counting system for traffic pattern prediction.
- **Teaching Assistant & Academic Support (Jul 2022 - Present):** Facilitated learning for 500+ students across 7 laboratory sections in C Programming, MATLAB, Machine Learning, GitHub. And Canvas LMS.
- **Research Assistant (2020 - May 2024):** Supported Q1 publication research in smart shelf customer behavior tracking, contributing to the development of novel AI/ML System Applications; Led procurement analysis for PHP 300K+ mobile robot project; contributed to active learning and cloud-based annotation research.

Toyota Motor Philippines

Laguna, Philippines

Infra-Innovation Enterprise Software Solution Intern

Jun 2023 – Sep 2023

- **Automation:** Engineered 10+ **RPA solutions** (Power Automate) and designed Power BI dashboards, reducing manual reporting workload by **80%**.
- **Technologies:** Power BI (DAX), Power Automate Desktop, Azure Active Directory, WhatsUp Gold

Featured AI & LLM Projects

RAG-Based Multimodal Chatbot

BGC, Philippines

Thinking Machines Portfolio

Dec 2025

- **Architected a production-ready RAG pipeline** capable of processing multimodal PDFs (text, tables, images) using agentic chunking and a 9-stage processing workflow.
- **Engineered sub-second retrieval performance** by integrating **GPT-4o-mini vision** and **GPT-3.5-Turbo** with **ChromaDB**, ensuring grounded source citations to strictly prevent AI hallucination.
- **Deployed via Docker** with 80%+ code coverage using **pytest**, featuring a **Streamlit UI** with real-time cost tracking for non-technical users.
- **Technologies:** Python, LangChain, ChromaDB, OpenAI API, Docker, Pytest, Streamlit

Autonomous Agentic Job Application System

Aug - Sep 2025

- **Designed an autonomous agentic system** that processes 100-200 complex tasks daily, utilizing **Claude LLM** for reasoning and task decomposition.
- **Implemented multi-step agent logic** to handle web scraping and form submission, successfully bypassing anti-detection blocks with a 95% success rate.
- **Democratized access** by building a user-friendly GUI (tkinter), allowing non-programmers to manage complex prompt queues without coding knowledge.
- **Technologies:** Python, Claude LLM (Anthropic API), Playwright, Flask, Tkinter, Selenium

HARAYA AI Fintech Platform
BPI Datawave Hackathon 2025

Makati City, Philippines
Sep 2025

- **Led the development** of "KapwaScore," an AI-driven cultural intelligence engine designed to financialize 37.6M unbanked Filipinos.
- **Generated 1,000+ synthetic profiles** to validate 4 machine learning algorithms, demonstrating robust model training capabilities.
- **Technologies:** Python, Scikit-learn, Pandas, Synthetic Data Generation, Git

AI Enablement & Training Leadership

EpiMetrics (via Supervaise, Inc.)

Nationwide, Ph

Technical Support & Co-Facilitator

Oct - Nov 2025

- Co-facilitated **Design Thinking** workshops for 250+ public health stakeholders (DOH, PhilHealth) to validate technical dashboard effectiveness.
- **Technologies:** Design Thinking Frameworks, Technical Requirement Gathering

Globe Telecom AI for HR Enterprise Workshop (via Supervaise, Inc.)

BGC, PH

Primary Teaching Assistant & AI Solutions Developer

Sep 2025

- Architected a custom **Prompt Composer toolkit** and "FlexBen Coach" AI assistant (5+ versions) for 90+ HR professionals, driving enterprise-wide GenAI adoption.
- **Technologies:** Prompt Engineering, LLM APIs, Custom AI Tooling

NVIDIA AI Philippines (NVIDIA AI PH) (via Supervaise, Inc.)

Nationwide, PH

Founding Team Member & Technical Lead

Oct 2022-Present

- **Community Scale:** Co-founded and led the technical direction for a nationwide AI community, scaling it to **2,000+ subscribers**.
- **Revenue Generation:** Orchestrated digital infrastructure and operations for high-impact workshops, generating **PHP 250k-300k in revenue**.
- **Analytics Dashboarding:** Developed **Power BI** dashboards to analyze community engagement and financial metrics across 10+ dimensions.
- **Technologies:** Power BI (DAX), Discord Community Management, Excel, Digital Operations Stack

TechShake AI Executive Workshop (via Supervaise, Inc.)

Ortigas, PH

Teaching Assistant & Materials Developer

Oct 2025

- Designed AI decision-support modules for **C-suite executives** (BDO, Bounty Fresh), focusing on strategic workflow automation.
- **Technologies:** Generative AI Strategy, Workflow Automation Tools

DOST Calabarzon AI Enablement Workshop (via Supervaise, Inc.)

Batangas, PH

Teaching Assistant & Materials Developer

Jul 2025

- Developed a 4-module curriculum on **Prompt Engineering** and **RAG** methodologies for 40-50 senior government officials; engineered a stateful AI workflow reducing manual encoding by **80%+**.
- **Technologies:** RAG Architecture, Python, Prompt Engineering

Education

De La Salle University

Manila, Philippines

Master of Science in Data Science

Sep 2025 – Present (2nd Term)

De La Salle University

Manila, Philippines

Bachelor of Science in Electronics and Communications Engineering, Minor in Applications Development

Sep 2019 – Dec 2023

- ECE/ECT Licensure: 85.70% | Q1 Scopus-Index Publication | National IECEP Champion 2022
- IECEP Regionals 2nd Runner Up | Jose Rizal Honor | 6-time Dean's Lister | Gold Thesis Nominee
- Broadcast ng Talino Participant (2022 & 2023) | DLSU Quizzer Representative | SmartEdge ECE Review Specialist Scholar

University of Santo Tomas - Angelicum College

Manila, Philippines

Science, Technology, and Mathematics Track

Jun 2017 – May 2019

- Best Thesis Nominee | Team Captain Philippine Robothon 2018
- International Robothon 2017 Programming Distinction Award

Key Technological Skills

- **Generative AI & LLMs:** Python (Expert), LangChain, RAG Architecture, Agentic Systems, Prompt Engineering, OpenAI/Claude/Gemini APIs, Vector Databases (ChromaDB), Amazon Bedrock.
- **MLOps & Cloud:** AWS (Lambda, S3, DynamoDB), Docker, Git, Pytest, SQL, Systemd.
- **Data Science & ML:** PyTorch, scikit-learn, Pandas, NumPy, Computer Vision (YOLO, CVAT), Power BI (DAX).

Selected Projects, Awards, & Achievements

BPI Datawave Hackathon 2025 - HARAYA AI Fintech Platform (Team Lead & Technical Architect): Led team to develop an AI-powered cultural intelligence fintech platform for 37.6M unbanked Filipinos using 4 ML algorithms.

Q1 Research Publication (MDPI Sensors 2024): Co-authored "Smart Shelf System for Customer Behavior Tracking in Supermarkets." (8,600+ views, 7 citations).

National IECEP Quiz Show Champion 2022: Competed against top universities from every Philippine region.

Regional 2nd Runner-Up IECEP-MSc 2022 - Competed against universities from Manila for national qualifiers

Jose Rizal Honor – 6-time Consistent Dean’s Lister: Sustained academic excellence (3.0+ GPA) across multiple terms

Gold Undergraduate Thesis Nominee: Smart Shelf System for Customer Behavior Tracking in Supermarkets

Smart Edge ECE Review Specialist Scholar: Consistent Top 5-22 placer in review center

Broadkast ng Talino Participan (2022 & 2023): Representative Quizzer for De La Salle University (DLSU)

Selected Organization & Leadership Experience

De La Salle University Winner's Circle

Representative Quizzer for DLSU

- **National Champions** IECEP Nationals 2022 | 2nd Runner-Up IECEP-MSc Regionals 2022
- 2-time Broadkast ng Talino Participan
